NEUROPEPTIDES

Neuropeptides (1995) **28**, 367–372
© Pearson Professional Ltd 1995

Subject Index to Volume 28

A

Acromegaly
  clinical significance of the growth hormone response to vasoactive intestinal peptide and gonadotropin-releasing hormone in, 115
  re-evaluation of the prolactin-releasing activity of growth hormone-releasing hormone in, 73
Adenylate cyclase regulation by galanin neuropeptide Y secretin and vasoactive intestinal peptide in rat frontal cortex hippocampus and hypothalamus, 21
Adrenal gland(s)
  effect of intracerebroventricular infusion of CRF on blood pressure and adrenal steroids in rabbits, 325
  involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
Airway(s)
  effects of α_2-adrenoceptor agonists rilmenidine clonidine and UK 14304 on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs, 197
  galanin and somatostatin inhibition of substance P-induced airway mucus secretion in the rat, 59
  pulmonary actions of the neurokinin-specific agonist [Sar^9,Met(O$_2$)^{11}]-substance P, 35
  tachykinin-induced nasal fluid secretion and plasma exudation in the rat: effects of peptidase inhibition, 309
Alaproclate: effects of acute systemic treatment on tissue levels and release of substance P in rat periaqueductal grey, 317
Alcohol-induced hypothermia, effects of cyclo (His-Pro) and its analogues on, 351
α_2-Adrenoceptors: effects of agonists rilmenidine clonidine and UK 14304 on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs, 197
α-Amidation: differential regulation by disulfiram and its metabolite diethyldithiocarbamate, 333
Analgesia/antinociception
  differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
  effects of acute systemic treatment with the 5-HT-blocker alaproclate on tissue levels and release of substance P in rat periaqueductal grey, 317
  effects of pretreatment with tachykinin antagonists and galanin on the development of spinal cord hyperexcitability following sciatic nerve section in the rat, 161
  non-NMDA receptor antagonist CNQX attenuates antinociception induced by morphine, 125
Angiotensin II: interactions with GABAergic transmission in pentylenetetrazol kindling seizures in mice, 29
Angiotensin converting enzyme (ACE)
  non-endothelial enzyme which forms [Met^5]-enkephalin from [Met^5]-enkephalin-Arg^{6}Phe^7 in isolated rabbit ear artery and, 137
  tachykinin-induced nasal fluid secretion and plasma exudation in the rat: effects of peptidase inhibition, 309
Anticonvulsants
  cholecystokinin potentiates morphine anticonvulsant action through both CCK-A and CCK-B receptors, 107
  interactions between angiotensin II and GABAergic transmission in pentylenetetrazol kindling seizures in mice, 29
Arginine vasopressin *see* Vasopressin

B

Behavioural and neurochemical effects of neurotensin versus [D-Tyr^{11}]neurotensin on mesolimbic dopaminergic function, 43
Bladder, urinary, GR 73,632 and [Glu(OBzl)^{11}]substance P are selective agonists for the septide-sensitive NK$_1$ receptor in, 99
Blood pressure, effect in rabbits of intracerebroventricular infusion of corticotropin-releasing hormone on, 325
Bradykinin (BK): effects of α_2-adrenoceptor agonists rilmenidine clonidine and UK 14304 on BK-and substance P-induced airway microvascular leakage in guinea-pigs, 197
Brainstem: fatiguing isometric contraction of cat hind-limb muscles results in release of immunoreactive neurokinins from sites in the rostral medulla, 209

C

Caffeine: mode of action of an inhibitory neuropeptide Schisto-FLRFamide on the locust oviduct visceral muscle, 147
Calcitonin gene-related peptide modulates neuronal activity in the mammalian cerebellar cortex, 85
Calcium
  mode of action of an inhibitory neuropeptide Schisto-FLRFamide on the locust oviduct visceral muscle and, 147
  V1a receptor-stimulated phospholipase D: differential regulation of transphosphatidylation and phospholipid hydrolysis by protein kinase C, 277
Cancer
  factors regulating the production of vasopressin-associated human neurophysin by small-cell carcinoma of the lung, 183
  pituitary adenoma: clinical significance of the growth hormone response to vasoactive intestinal peptide and gonadotropin-releasing hormone in acromegaly, 115
Captopril
  non-endothelial enzyme which forms [Met^5]-enkephalin from [Met^5]-enkephalin-Arg^{6}Phe^7 in isolated rabbit ear artery and, 137
  tachykinin-induced nasal fluid secretion and plasma exudation in the rat: effects of peptidase inhibition, 309

Carboxypeptidase H activity associated with bovine brain clathrin-coated vesicles, 341
Cerebellum
  calcitonin gene-related peptide modulates neuronal activity in the mammalian cerebellar cortex, 85
  distribution of corticotropin-releasing factor (CRF) binding sites in the opossum cerebellum, 51
  ET_B-selective agonist [^{125}I]-BQ3020 displays species differences in its binding characteristics, 191
Cholecystokinin (CCK)
  bovine brain clathrin-coated vesicle content of, 341
  effects of acute systemic treatment with the 5-HT-blocker alaproclate on tissue levels of CCK in rat periaqueductal grey, 317
  morphine anticonvulsant action potentiation through both CCK-A and CCK-B receptors, 107
  role of CCK_A and CCK_B receptors in secretion of anterior pituitary hormones in male rats, 1
  serine peptidase activity is responsible for the inactivation of endogenous CCK in human brain, 157
Cholinergic enzymatic activity and neuropeptide content in the inflamed guinea-pig jejunum during parasitic infection, 287
Clathrin-coated vesicles, bovine brain, neuropeptide-like immunoreactivity and carboxypeptidase H activity of, 341
Clonidine, effect on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs of, 197
Cortex
  cerebellar
    calcitonin gene-related peptide modulates neuronal activity in the mammalian cerebellar cortex, 85
    distribution of corticotropin-releasing factor (CRF) binding sites in the opossum cerebellum, 51
    cingulate, effects of acute systemic treatment with the 5-HT- blocker alaproclate on tissue levels of substance P in, 317
    frontal, adenylate cyclase regulation by galanin neuropeptide Y secretin and vasoactive intestinal peptide in, 21
    serine peptidase activity is responsible for the inactivation of endogenous cholecystokinin in human brain, 157
Corticosterone
  effect of intracerebroventricular infusion of CRF on blood pressure and adrenal steroids in rabbits, 325
  involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
  plasma Tyr-MIF-1-like immunoreactivity after hypophysectomy and, 65
Corticotropin-releasing hormone (CRH/CRF)
  distribution of corticotropin-releasing factor (CRF) binding sites in the opossum cerebellum, 5
  effect of intracerebroventricular infusion of CRF on blood pressure and adrenal steroids in rabbits, 325
  involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
Cyclic AMP phosphodiesterase: differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
Cyclo(His-Pro), attenuation of alcohol-induced hypothermia by, 351

D

Disulfiram and its metabolite diethyldithiocarbamate, differential regulation of peptide α-amidation by, 333
Dopamine: behavioural and neurochemical effects of neurotensin versus [D-Tyr^{11}]neurotensin on mesolimbic dopaminergic function, 43
Dorsal root ganglion cells: peripheral axotomy increases the expression of galanin message-associated peptide (GMAP) and alters the effects of intrathecal GMAP on the flexor reflex in the rat, 299

E

β-Endorphin
  differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
  non-NMDA receptor antagonist CNQX attenuates antinociception induced by morphine but not by, 125
  opioid peptide inhibition of endogenous norepinephrine release from the A2 noradrenergic cell group in vitro, 219
Endothelin: ET_B-selective agonist [^{125}I]-BQ3020 displays species differences in its binding characteristics, 191
Enkephalin(s)
  differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
  immunoelectron microscopic study of met-enkephalin structures in cat prevertebral ganglia, 131
  immunoreactivity in the paraneurons of the tiger salamander tongue, 257
  non-NMDA receptor antagonist CNQX attenuates antinociception induced by morphine but not by D-Pen2-D-Pen5-enkephalin, 125
  opioid peptide inhibition of endogenous norepinephrine release from the A2 noradrenergic cell group in vitro, 219
  substrate- and inhibitor-specificity of a non-endothelial enzyme which forms [Met^5]-enkephalin from [Met^5]-enkephalin- Arg^{6}Phe^7 in isolated rabbit ear artery, 137
Epilepsy: cholecystokinin potentiates morphine anticonvulsant action through both CCK-A and CCK-B receptors, 107
Ethanol-induced hypothermia, effects of cyclo(His-Pro) and its analogues on, 351

F

Flexor reflex
  effects of pretreatment with tachykinin antagonists and galanin on the development of spinal cord hyperexcitability following sciatic nerve section in the rat, 161
  peripheral axotomy increases the expression of galanin message-associated peptide (GMAP) in dorsal root ganglion cells and alters the effects of intrathecal GMAP on the flexor reflex in the rat, 299
FMRFamide/FMRFamide-related peptides
  binding and activation regions of SchistoFLRFamide, 261
  immunohistochemical localization of FMRFamide-containing neurons and nerve fibres in the ganglia and gonad walls of the scallop, 79
  mode of action of an inhibitory neuropeptide SchistoFLRFamide on the locust oviduct visceral muscle, 147

G

GABA: interactions between angiotensin II and GABAergic transmission in pentylenetetrazol kindling seizures in mice, 29

Galanin
adenylate cyclase regulation in rat frontal cortex hippocampus and hypothalamus, 21
effects of pretreatment with tachykinin antagonists and galanin on the development of spinal cord hyperexcitability following sciatic nerve section in the rat, 161
inhibition of substance P-induced airway mucus secretion in the rat by, 59
Galanin message-associated peptide (GMAP): peripheral axotomy increases the expression of GMAP in dorsal root ganglion cells and alters the effects of intrathecal GMAP on the flexor reflex in the rat, 299
Gastric acid secretion caused by gastrin-17 injection into the hypothalamic paraventricular nucleus in rats, 13
Gastrointestinal tract
gastric acid secretion caused by gastrin-17 injection into the hypothalamic paraventricular nucleus in rats, 13
neuropeptide content and cholinergic enzymatic activity in the inflamed guinea-pig jejunum during parasitic infection, 287
Gene expression
expression and characterization of preproVIP derived peptides in the human male urogenital tract, 227
peripheral axotomy increases the expression of galanin message-associated peptide (GMAP) in dorsal root ganglion cells and alters the effects of intrathecal GMAP on the flexor reflex in the rat, 299
vasopressin: factors regulating the production of vasopressin-associated human neurophysin by small-cell carcinoma of the lung, 183
Genital system
expression and characterization of preproVIP derived peptides in the human male urogenital tract, 227
immunohistochemical localization of FMRFamide-containing neurons and nerve fibres in the ganglia and gonad walls of the scallop, 79
Glucocorticoid receptor-induced decrease in circulating luteinizing hormone in the male rat, role of endogenous opioid peptides in, 175
Gonadotropin-releasing hormone (GnRH)
clinical significance of the growth hormone response to vasoactive intestinal peptide and GnRH in acromegaly, 115
role of endogenous opioid peptides in central glucocorticoid receptor-induced decreases in circulating luteinizing hormone in the male rat, 175
GR 73,632 and [Glu(OBzl)^{11}]substance P are selective agonists for the septide-sensitive NK_1 receptor in the rat urinary bladder, 99
Growth hormone (GH)
clinical significance of the growth hormone response to vasoactive intestinal peptide and gonadotropin-releasing hormone in acromegaly, 115
re-evaluation of the prolactin-releasing activity of growth hormone-releasing hormone in acromegaly in vivo, 73
role of cholecystokinin CCKA and CCKB receptors in secretion of anterior pituitary hormones in male rats, 1

H

Haemoglobin: VV-haemoglobin-7 and LVV-haemoglobin-7 released during in vitro peptic hydrolysis are morphinomimetic peptides, 243
Hippocampus, adenylate cyclase regulation by galanin neuropeptide Y secretin and vasoactive intestinal peptide in, 21
5-Hydroxytryptamine (5-HT; Serotonin)
calcitonin gene-related peptide modulates neuronal activity in the mammalian cerebellar cortex, 85
effects of acute systemic treatment with the 5-HT-blocker alaproclate on tissue levels and release of substance P in rat periaqueductal grey, 317
in the paraneurons of the tiger salamander tongue, 257
Hypophysectomy, effect of corticosterone on plasma Tyr-MIF-1-like immunoreactivity following, 65
Hypothalamus
adenylate cyclase regulation by galanin neuropeptide Y secretin and vasoactive intestinal peptide in, 21
gastric acid secretion caused by gastrin-17 injection into the hypothalamic paraventricular nucleus in rats, 13
involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
melanin-concentrating hormone synthesis is stimulated by ventromedial hypothalamic lesions in the rat lateral hypothalamus, 267
Hypothermia, alcohol-induced, attenuation by cyclo(His-Pro) and its analogues of, 351

I

Inflammation
neuropeptide content and cholinergic enzymatic activity in the inflamed guinea-pig jejunum during parasitic infection, 287
see also Airway
Intestines *see* Gastrointestinal tract

L

Locust (*Locusta migratoria*)
binding and activation regions of SchistoFLRFamide, 261
mode of action of an inhibitory neuropeptide Schisto-FLRFamide on the locust oviduct visceral muscle, 147
Lung(s)
ET_B-selective agonist [^{125}I]-BQ3020 displays species differences in its binding characteristics, 191
factors regulating the production of vasopressin-associated human neurophysin by small-cell carcinoma of the lung, 183
pulmonary actions of the neurokinin-specific agonist [Sar^9,Met(O$_2$)^{11}]-substance P, 35
Luteinizing hormone (LH): role of endogenous opioid peptides in central glucocorticoid receptor-induced decreases in circulating LH in the male rat, 175

M

Medulla
fatiguing isometric contraction of cat hind-limb muscles results in release of immunoreactive neurokinins from sites in the rostral medulla, 209
opioid peptide inhibition of endogenous norepinephrine release from the A2 noradrenergic cell group in vitro, 219

Melanin-concentrating hormone synthesis is stimulated by ventromedial hypothalamic lesions in the rat lateral hypothalamus, 267
Memory: polymodal dose-response curve for oxytocin in the social recognition test, 251
Microvascular permeability: effects of α_2-adrenoceptor agonists rilmenidine clonidine and UK 14304 on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs, 197
Morphine
  cholecystokinin potentiates morphine anticonvulsant action through both CCK-A and CCK-B receptors, 107
  differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
  morphinomimetic peptides VV-haemoglobin-7 and LVV-haemoglobin-7 released during in vitro peptic haemoglobin hydrolysis, 243
  non-NMDA receptor antagonist CNQX attenuates antinociception induced by morphine, 125
Mucus secretion in rat airways, substance P-induced, inhibition by galanin and somatostatin of, 59
Muscle(s)
  expression and characterization of preproVIP derived peptides in the human male urogenital tract, 227
  fatiguing isometric contraction of cat hind-limb muscles results in release of immunoreactive neurokinins from sites in the rostral medulla, 209
  locust oviduct visceral muscle, action of inhibitory neuropeptide SchistoFLRFamide on, 147, 261
  neuropeptide content and cholinergic enzymatic activity in the inflamed guinea-pig jejunum during parasitic infection, 287

N

Nasal mucosa: tachykinin-induced nasal fluid secretion and plasma exudation in the rat, 309
Neurokinins/NK receptors
  effects of acute systemic treatment with the 5-HT-blocker alaproclate on tissue levels of neurokinin A in rat periaqueductal grey 317
  effects of pretreatment with tachykinin antagonists and galanin on the development of spinal cord hyperexcitability following sciatic nerve section in the rat, 161
  fatiguing isometric contraction of cat hind-limb muscles results in release of immunoreactive neurokinins from sites in the rostral medulla, 209
  GR 73,632 and [Glu(OBzl)^{11}]substance P are selective agonists for the septide-sensitive NK_1 receptor in the rat urinary bladder, 99
  pulmonary actions of the neurokinin-specific agonist [Sar^9,Met(O$_2$)^{11}]-substance P, 35
  substance P and neurokinin A vary independently in different regions of rat sensory neurons, 237
  tachykinin-induced nasal fluid secretion and plasma exudation in the rat: effects of peptidase inhibition, 309
  Neuropeptide Y (NPY)
  adenylate cyclase regulation in rat frontal cortex hippocampus and hypothalamus, 21
  bovine brain clathrin-coated vesicle content of, 341
Neurophysin(s): factors regulating the production of vasopressin-associated human neurophysin by small-cell carcinoma of the lung, 183
Neurotensin
  behavioural and neurochemical effects of neurotensin versus [D-Tyr^{11}]neurotensin on mesolimbic dopaminergic function, 43
Neutral endopeptidase, tachykinin-induced nasal fluid secretion and plasma exudation in the rat and, 309
NMDA (N-methyl-D-aspartate): non-NMDA receptor antagonist CNQX attenuates antinociception induced by morphine, 125
Nociception *see* Analgesia/antinociception
Noradrenaline (norepinephrine): opioid peptide inhibition of endogenous norepinephrine release from the A2 noradrenergic cell group in vitro, 219

O

Opioid(s)
  cholecystokinin potentiates morphine anticonvulsant action through both CCK-A and CCK-B receptors, 107
  differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
  endogenous norepinephrine release from the A2 noradrenergic cell group in vitro and, 219
  immunoelectron microscopic study of met-enkephalin structures in cat prevertebral ganglia, 131
  morphinomimetic peptides VV-haemoglobin-7 and LVV-haemoglobin-7 released during in vitro peptic haemoglobin hydrolysis, 243
  non-NMDA receptor antagonist CNQX attenuates antinociception induced by morphine, 125
  role of endogenous opioid peptides in central glucocorticoid receptor-induced decreases in circulating luteinizing hormone in the male rat, 175
  substrate- and inhibitor-specificity of a non-endothelial enzyme which forms [Met^5]-enkephalin from [Met^5]-enkephalin-Arg^{6}Phe^7 in isolated rabbit ear artery, 137
Opossum (*Didelphus marsupialis virginiana*), distribution of corticotropin-releasing factor (CRF) binding sites in the cerebellum of, 5
Oviduct, locust
  binding and activation regions of SchistoFLRFamide, 261
  mode of action of an inhibitory neuropeptide SchistoFLRFamide on the visceral muscle of, 147
Oxytocin, role in memory of: polymodal dose-response curve in the social recognition test, 251

P

Parasitic infection: neuropeptide content and cholinergic enzymatic activity in the inflamed guinea-pig jejunum, 287
Paraventricular nucleus (PVN): gastric acid secretion caused by gastrin-17 injection into both sides of the hypothalamic PVN in rats, 13
Peptide α-amidation: differential regulation by disulfiram and its metabolite diethyldithiocarbamate, 333
Peptide histidine isoleucine (PHI): involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
Periaqueductal grey, rat, effects of acute systemic treatment with the 5-HT-blocker alaproclate on tissue levels and release of substance P in, 317
Peripheral nerve injury

effects of pretreatment with tachykinin antagonists and galanin on the development of spinal cord hyperexcitability following sciatic nerve section in the rat, 161
peripheral axotomy increases the expression of galanin message-associated peptide (GMAP) in dorsal root ganglion cells and alters the effects of intrathecal GMAP on the flexor reflex in the rat, 299
Phospholipase D activity, V1a receptor-stimulated: differential regulation of transphosphatidylation and phospholipid hydrolysis by protein kinase C, 277
Pituitary gland
adenoma: clinical significance of the growth hormone response to vasoactive intestinal peptide and gonadotropin-releasing hormone in acromegaly, 115
involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
peptide α-amidation: differential regulation by disulfiram and its metabolite diethyldithiocarbamate, 333
role of cholecystokinin CCK_A and CCK_B receptors in secretion of anterior pituitary hormones in male rats, 1
role of endogenous opioid peptides in central glucocorticoid receptor-induced decreases in circulating luteinizing hormone in the male rat, 175
see also Acromegaly
Prolactin
re-evaluation of the prolactin-releasing activity of growth hormone-releasing hormone in acromegaly in vivo, 73
role of cholecystokinin CCK_A and CCK_B receptors in secretion of anterior pituitary hormones in male rats, 1
Protein kinase C, V1a receptor-stimulated phospholipase D activity and, 277

R

Respiratory system
effects of α_2-adrenoceptor agonists rilmenidine clonidine and UK 14304 on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs, 197
ET_B-selective agonist [^{125}I]-BQ3020 displays species differences in its binding characteristics, 191
factors regulating the production of vasopressin-associated human neurophysin by small-cell carcinoma of the lung, 183
galanin and somatostatin inhibition of substance P-induced airway mucus secretion in the rat, 59
pulmonary actions of the neurokinin-specific agonist [Sar^9,$Met(O_2)^{11}$]-substance P, 35
tachykinin-induced nasal fluid secretion and plasma exudation in the rat: effects of peptidase inhibition, 309
Rilmenidine, effect on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs of, 197

S

Salamander (*Ambystoma tigrinum*), enkephalin immunoreactivity in the paraneurons of the tongue of, 257
Scallop (*Pecten maximus*), immunohistochemical localization of FMRFamide-containing neurons and nerve fibres in the ganglia and gonad walls of, 79
SchistoFLRFamide
binding and activation regions of, 261
mode of action on the locust oviduct visceral muscle of, 147
Sciatic nerve section
effects of pretreatment with tachykinin antagonists and galanin on the development of spinal cord hyperexcitability following,161
peripheral axotomy increases the expression of galanin message-associated peptide (GMAP) in dorsal root ganglion cells and alters the effects of intrathecal GMAP on the flexor reflex in the rat, 299
Secretin: adenylate cyclase regulation in rat frontal cortex hippocampus and hypothalamus, 21
Seizure(s)
cholecystokinin potentiates morphine anticonvulsant action through both CCK-A and CCK-B receptors, 107
interactions between angiotensin II and GABAergic transmission in pentylenetetrazol kindling seizures in mice, 29
Septide: GR 73,632 and [$Glu(OBzl)^{11}$]substance P are selective agonists for the septide-sensitive NK_1 receptor in the rat urinary bladder, 99
Serine peptidase activity is responsible for the inactivation of endogenous cholecystokinin in human brain, 157
Serotonin *see* 5-Hydroxytryptamine
Signal transduction: adenylate cyclase regulation by galanin neuropeptide Y secretin and vasoactive intestinal peptide in rat frontal cortex hippocampus and hypothalamus, 21
Somatostatin (SS)
bovine brain clathrin-coated vesicle content of, 341
galanin and somatostatin inhibition of substance P-induced airway mucus secretion in the rat, 59
Spinal cord
differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
effects of pretreatment with tachykinin antagonists and galanin on the development of spinal cord hyperexcitability following sciatic nerve section in the rat, 161
neurokinin A and substance P vary independently in different regions of rat sensory neurons, 237
peripheral axotomy increases the expression of galanin message-associated peptide (GMAP) in dorsal root ganglion cells and alters the effects of intrathecal GMAP on the flexor reflex in the rat, 299
Steroid hormones
effect of corticosterone on plasma Tyr-MIF-1-like immunoreactivity after hypophysectomy, 65
effect of intracerebroventricular infusion of corticotropin-releasing hormone on blood pressure and adrenal steroids in rabbits, 32
involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
role of endogenous opioid peptides in central glucocorticoid receptor-induced decreases in circulating luteinizing hormone in the male rat, 175
Stomach: gastric acid secretion caused by gastrin-17 injection into the hypothalamic paraventricular nucleus in rats, 13
Stress: effect of intracerebroventricular infusion of corticotropin-releasing hormone on blood pressure and adrenal steroids in rabbits, 325
Substance P (SP)
effects of acute systemic treatment with the 5-HT-uptake blocker alaproclate on tissue levels and release of SP in rat periaqueductal grey, 317

effects of α2-adrenoceptor agonists rilmenidine clonidine and UK 14304 on bradykinin- and SP-induced airway microvascular leakage in guinea-pigs, 197
galanin and somatostatin inhibition of SP-induced airway mucus secretion in the rat, 59
GR 73,632 and [Glu(OBzl)^{11}]substance P are selective agonists for the septide-sensitive NK_1 receptor in the rat urinary bladder, 99
neurokinin A and SP vary independently in different regions of rat sensory neurons, 237
neuropeptide content and cholinergic enzymatic activity in the inflamed guinea-pig jejunum during parasitic infection, 287
pulmonary actions of the neurokinin-specific agonist [Sar^9,Met(O$_2$)^{11}]-substance P, 35
tachykinin-induced nasal fluid secretion and plasma exudation in the rat: effects of peptidase inhibition, 309

T

Tachykinins *see* Neurokinins; Substance P
Taste organs: enkephalin immunoreactivity in the paraneurons of the tiger salamander tongue, 257
Temperature: attenuation of alcohol-induced hypothermia by cyclo(His-Pro) and its analogues, 351
Thyrotropin (TSH): role of cholecystokinin CCK_A and CCK_B receptors in secretion of anterior pituitary hormones in male rats, 1
Thyrotropin-releasing hormone (TRH)-responsive acromegaly, clinical significance of the growth hormone response to vasoactive intestinal peptide and gonadotropin-releasing hormone in, 115
Tongue, tiger salamander, enkephalin immunoreactivity in the paraneurons of, 257
Tyr-MIF-1-like immunoreactivity after hypophysectomy, effect of corticosterone on, 65

U

U50,488H
differential effects of 3-isobutyl-1-methylxanthine on opioid-induced antinociception in the mouse, 357
non-NMDA receptor antagonist CNQX attenuates antinociception induced by morphine but not by, 125
UK 14304, effect on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs of, 197
Urinary tract
expression and characterization of preproVIP derived peptides in the human male urogenital tract, 227
GR 73,632 and [Glu(OBzl)^{11}]substance P are selective agonists for the septide-sensitive NK_1 receptor in the rat urinary bladder, 99

V

Vascular system
effects of α_2-adrenoceptor agonists rilmenidine clonidine and UK 14304 on bradykinin- and substance P-induced airway microvascular leakage in guinea-pigs, 197
effects of intracerebroventricular infusion of corticotropin-releasing hormone on blood pressure and adrenal steroids in rabbits, 32
substrate- and inhibitor-specificity of a non-endothelial enzyme which forms [Met^5]-enkephalin from [Met^5]-enkephalin-Arg^{6}Phe^7 in isolated rabbit ear artery, 137
Vasoactive intestinal peptide (VIP)
adenylate cyclase regulation in rat frontal cortex hippocampus and hypothalamus, 21
clinical significance of the growth hormone response to VIP and gonadotropin-releasing hormone in acromegaly, 115
expression and characterization of preproVIP derived peptides in the human male urogenital tract, 227
involvement of vasopressin and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
neuropeptide content and cholinergic enzymatic activity in the inflamed guinea-pig jejunum during parasitic infection, 287
Vasopressin (AVP)
gene expression: factors regulating the production of vasopressin-associated human neurophysin by small-cell carcinoma of the lung, 183
involvement of AVP and corticotropin-releasing hormone in VIP- and PHI-induced secretion of ACTH and corticosterone, 167
V1a receptor-stimulated phospholipase D: differential regulation of transphosphatidylation and phospholipid hydrolysis by protein kinase C, 277
Ventral tegmental area: behavioural and neurochemical effects of neurotensin versus [D-Tyr^{11}]neurotensin on mesolimbic dopaminergic function, 43
Ventromedial hypothalamic nuclei, melanin-concentrating hormone synthesis is stimulated by lesions of, 267
